

LIVE IN SRI LANKA

The Ultimate Immigration & Soft Landing Manual for Foreign Guests

Exclusively Powered by Ensolanka LLC

Welcome to Sri Lanka! Navigating bureaucratic and immigration channels in a foreign nation can be complex. This comprehensive guide has been curated by **Ensolanka LLC** to provide an absolute "single, simple process" wrapper around Sri Lankan governmental regulations. Our core purpose is to absorb all local administrative complexity behind the scenes, allowing you a seamless transition into the paradise island.

The Ensolanka Promise

Legally operating as an elite private consultancy and digital services infrastructure specialist, Ensolanka LLC Bridges the gap between foreign visitors and state departments. We provide pre-vetted document checklist generation, direct liaison support, and dedicated operational channels to shield you from standard bureaucratic bottlenecks.

1. The Strategic Visa Path Finder

Before launching an application, choose the roadmap that strictly aligns with your intended duration of stay and underlying financial activities. Sri Lanka splits its inbound paths into three major frameworks:

Stay Duration	Recommended Path	Core Operational Target
≤ 30 Days	Standard Tourist ETA / eVisa	Short-term exploration, holidaymaking, or preliminary business scouting.
1 to 6 Months	Initial Tourist ETA + In-Country Extensions	Long-stay travelers, families, and retirees seeking multi-month escapes. Extended at DI&E.
6 to 12+ Months	Digital Nomad Visa (DNL Pathway)	Remote corporate employees, international freelancers, and cross-border digital business owners.

2. Standard Tourist & Business Entry (ETA / eVisa)

The Electronic Travel Authorization (ETA) or eVisa system is managed directly by the Department of Immigration & Emigration (DI&E). It serves as the baseline entry standard for short-term stays.

2.1 Baseline Requirements

- **Passport Validity:** Must maintain a minimum validity of six (6) months from the exact date of arrival.
- **Onward Travel:** A valid return flight or confirmed onward ticket out of Sri Lanka must be presented upon request at immigration control.
- **Financials & Boarding:** Proof of adequate funds and clear accommodation arrangements (such as hotel vouchers or letters of stay) may be requested.
- **Processing Fees:** Paid via secure online payment gateways, except when temporary "free visa" bilateral schemes apply to specific nationalities.

2.2 Step-by-Step Guided Flow

To completely avoid fraudulent third-party agency sites mimicking official infrastructure, always adhere to the verified workflow managed inside the Ensolanka Portal wrapper:

1. Navigate strictly to the official government ETA/eVisa domain linked inside your Ensolanka Dashboard.
2. Select the explicit classification matching your trip (Tourist, Business, or Transit).
3. Input exact biographical criteria, travel schedules, and upload legible passport data sheets.
4. Execute payment via the verified state gateway and await your official approval email. Ensure a hard copy is kept with your travel documents.

3. The Elite Digital Nomad Visa (DNV) Framework

Designed specifically to cater to remote workers, independent software contractors, and global business owners, the Digital Nomad Visa (DNV) is a groundbreaking pathway enabling long-term legal residence in Sri Lanka without establishing domestic tax residency or legal entities locally.

3.1 Who Qualifies?

Foreign nationals aged 18 and above who maintain stable remote employment, service international freelancing accounts, or own entities registered outside Sri Lanka. **Crucial Legal Condition:** All revenue must originate from foreign sources, and absolutely no domestic Sri Lankan local employment or local client servicing is allowed under this visa subclass. Spouses and legal dependents are fully covered under the primary applicant's umbrella.

3.2 Financial & Compliance Thresholds

- **Income Verification:** A minimum monthly foreign income remittance of **USD 2,000** must be channeled directly into a Sri Lankan bank account for the main applicant. Incremental thresholds apply for more than two dependents.
- **Background & Safety:** Provision of a certified, clean criminal record/police clearance from your home country, alongside strict state security clearance forms.
- **Healthcare Support:** Comprehensive international health insurance policy covering medical emergencies and repatriation across the entire visa period.

3.3 Document Dossier Architecture

Ensolanka compiles and formats your application dossier to match state parameters. The required documents include:

Category	Required Documentation Details
Primary Identity	Official application forms, formal personalized request letter, high-resolution passport biography pages, and recent passport-standard photographs.
Family Ties	Apostilled or legally certified marriage certificates and child birth certificates for all attached dependents.
Clearances	Official medical fitness reports, active police clearance certifications, and completed national security vetting profiles.
Financial & Institutional	Verifiable proof of global income, statements of inbound remittance, and a formal institutional recommendation dossier from the Ministry of Digital Economy.

Bureaucratic Concierge Notice

Because processing an individual DNV involves cross-departmental vetting by the Department of Immigration & Emigration (DI&E), the Ministry of Digital Economy, and the Inland Revenue Department (IRD), Ensolanka manages the submission pipeline. We stage dossiers directly at the DI&E Residence Visa Division at "Suhurupaya", Battaramulla, utilizing pre-established structural communication protocols.

4. Ensolanka "Soft Landing" and Concierge Tier Services

To streamline your transition, Ensolanka structures its operations into clear, interactive software tools and physical service menus:

4.1 Interactive Portal Features

- **Visa Path Finder:** An automated logic engine that dynamically assesses user responses to output optimized regulatory paths.
- **Dynamic Document Checklist Generator:** Provides user-specific, secure upload portals built with end-to-end data encryption for processing highly sensitive personal records.
- **Real-Time Status Dashboard:** Gives complete visibility into every phase of tracking: *"ETA Approved"* → *"DNV Dossier Compiled"* → *"Ministry Recommendation Received"* → *"Tax Registration Target Open"*.
- **Automated Notification & Rules Engine:** Pushes instant email and WhatsApp reminders for impending tourist visa extensions, annual DNV renewals, and mandated tax reporting deadlines.

4.2 Practical Concierge Tiers

Choose the operational model that suits your relocation pacing:

1. **Visa Guidance Tier (Complimentary):** Access to high-level digital knowledge bases, verified country lists, regulatory updates, and step-by-step visual forms.
2. **Application Preparation Tier (Premium Paid):** Comprehensive manual review of all submitted financial, medical, and police credentials. Ensolanka extracts, formats, and structures the application packs to flawlessly match state department standards.
3. **Full Concierge & Soft Landing Tier (Elite Paid):** Total white-glove relocation support. Includes curated airport pickup routing, integration with verified local long-stay accommodation partners (who provide legal proof-of-stay letters), direct physical or virtual accompaniment through the DI&E at Battaramulla, and handling complex annual DNV renewal/tax registration workflows.

5. Legal Compliance, Disclaimers, and Structural Integrity

Ensolanka LLC operates strictly under international consulting frameworks. To maintain the highest integrity and compliance:

- **Sovereign Mandate:** Ensolanka acts solely as a specialized private services consultant. All final statutory approvals, processing timelines, and absolute issuance authorities reside exclusively with the Controller General of the Department of Immigration & Emigration and relevant ministries of the Democratic Socialist Republic of Sri Lanka.
- **Tax & Corporate Continuity:** For Digital Nomad Visa paths, annual renewals require robust proof of tax compliance tracking. Ensolanka maintains partner relationships with top-tier local tax advisory firms to ensure your regulatory profile remains completely flawless with the Inland Revenue Department (IRD).

This document is an operational manual property of Ensolanka LLC (Registered: Wyoming, USA). All information maps directly to official Sri Lankan immigration baselines as of May 2026.
